Officer: **Mireia Garcia**

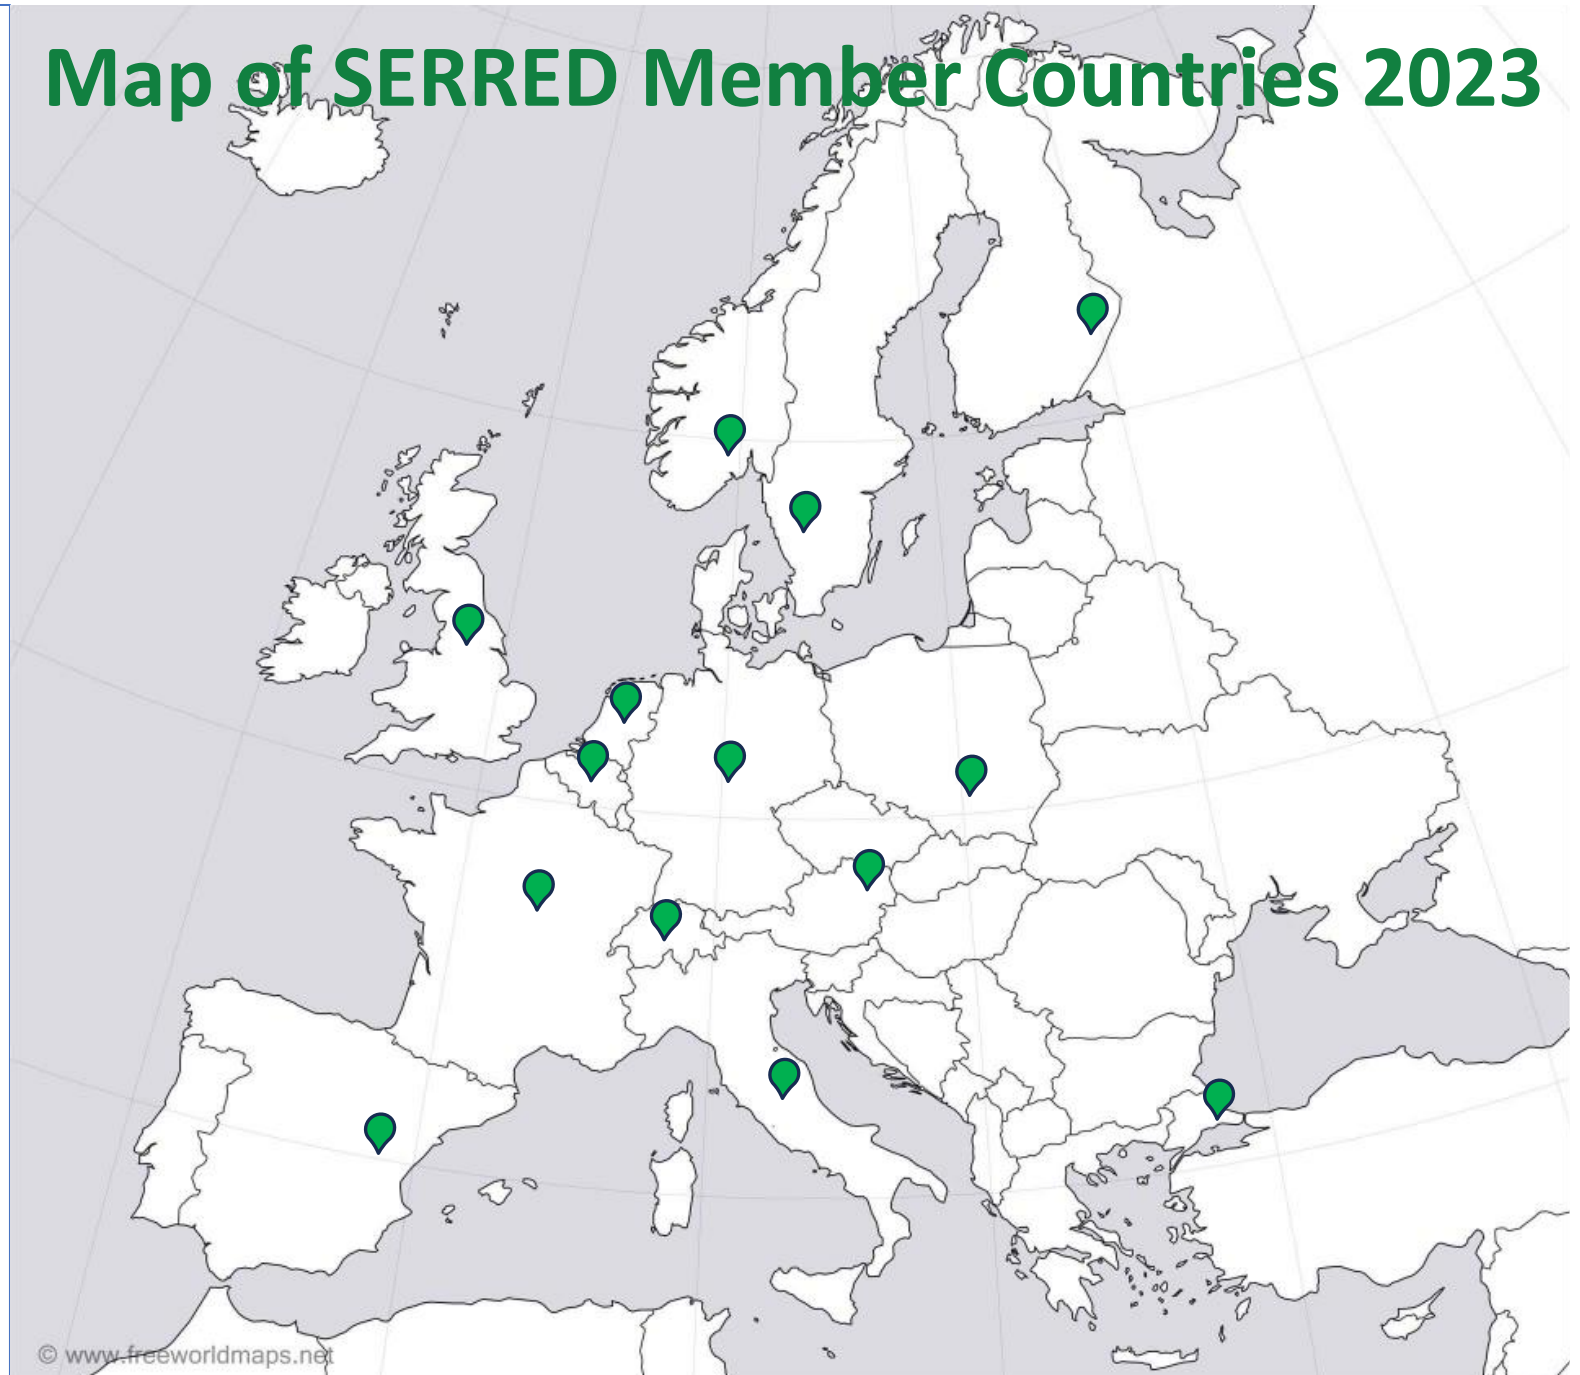

Officer: **Sophie Hammermeister**

Officer: **Bert Himpe**

Officer: **Federico Corsinotti**

Secretary: **Phil Pease**

Map of SERRED Member Countries 2023

What we do:

SERRED members operate drum and IBC reconditioning facilities across Europe to clean, test and refurbish a wide variety of industrial packagings, which have imported products from around the world.

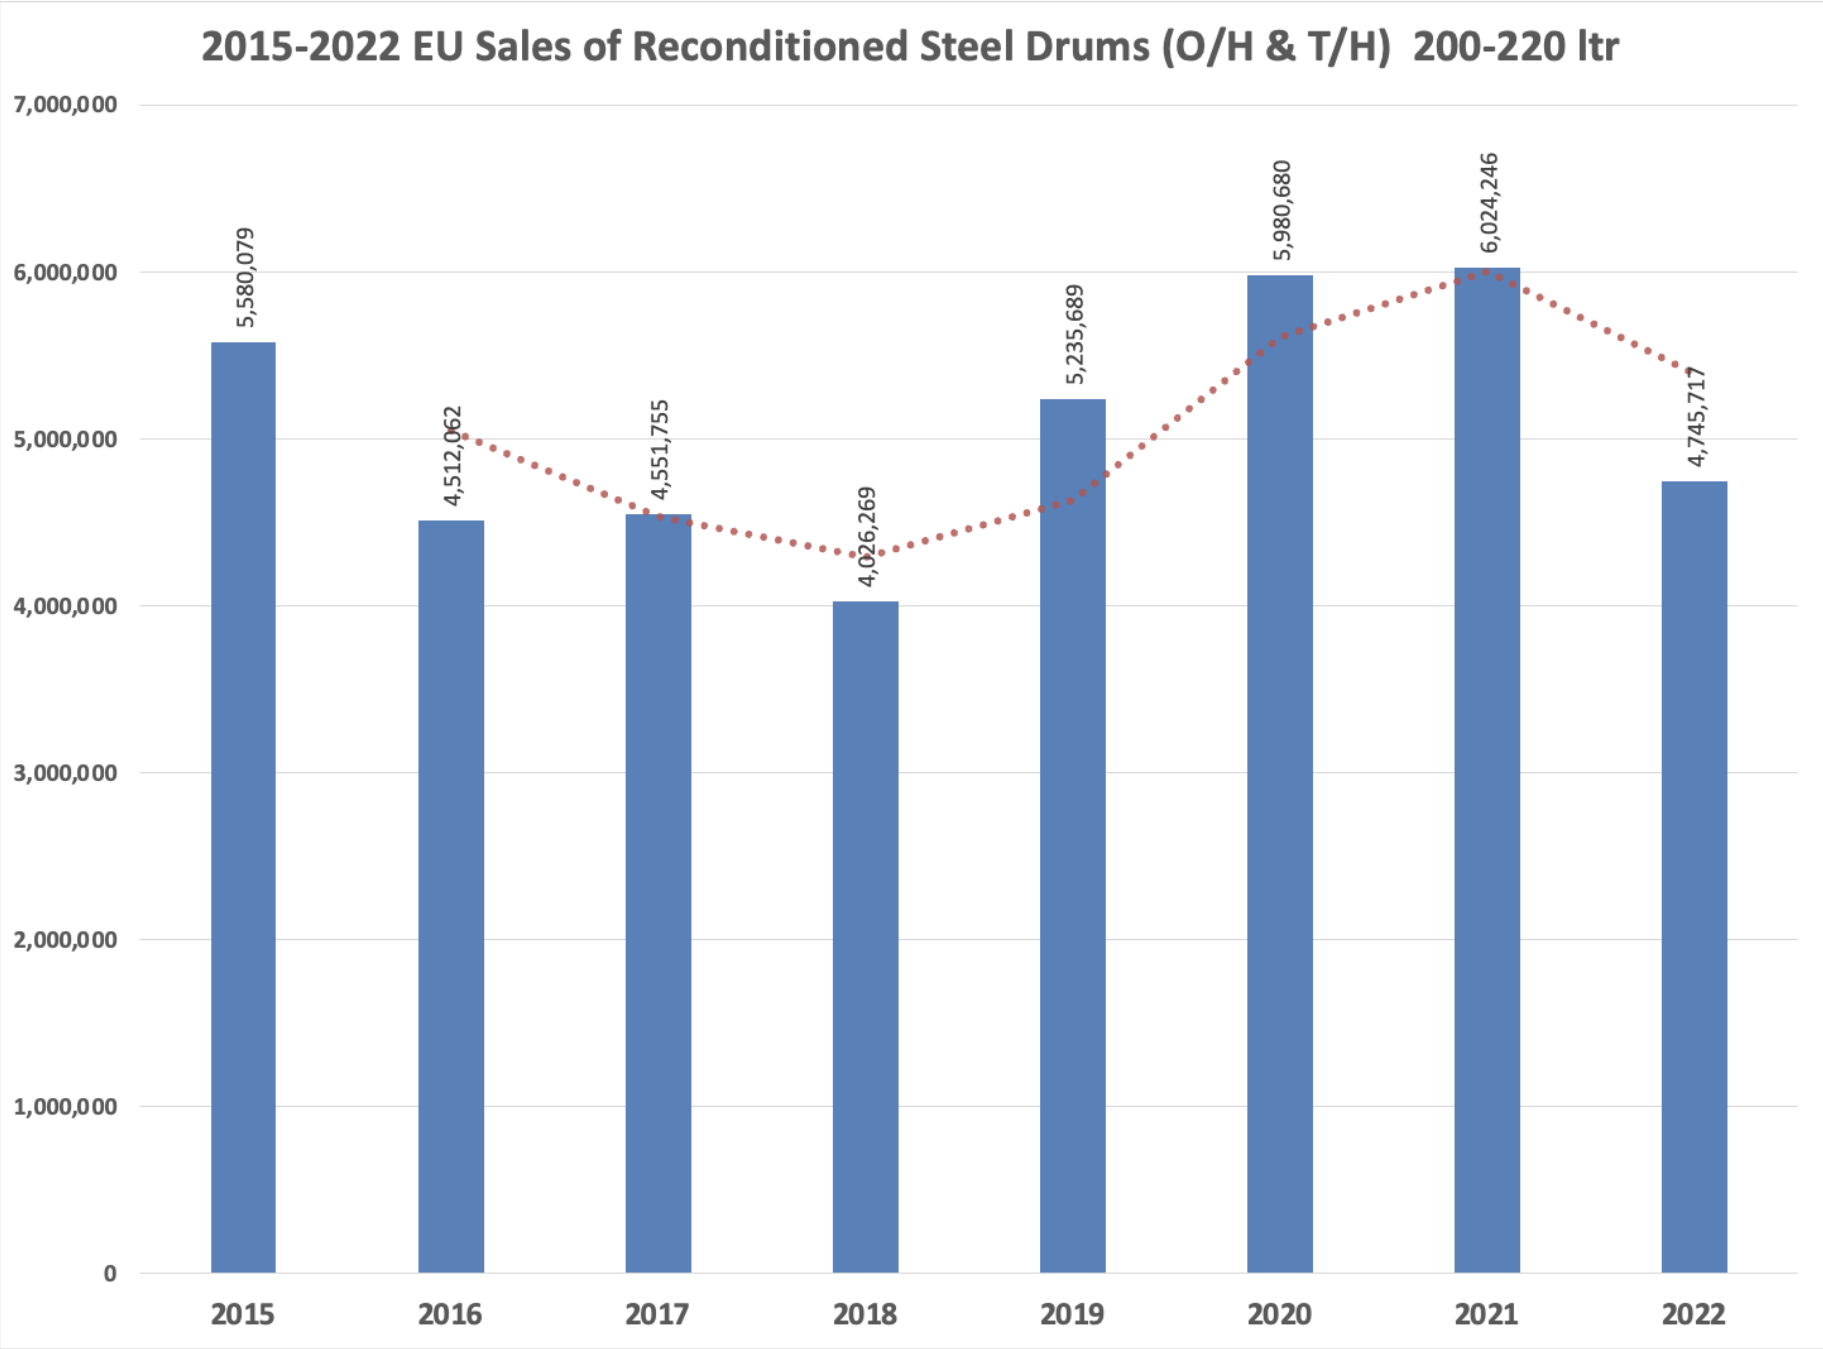

Following specialised reconditioning, inspection and testing, these kegs, drums and IBCs are ready to be filled and used again on the global market – having had only required minimal energy consumption.

SERRED Statistics

Reconditioned 200 ltr Steel Drum Sales 2015-2022

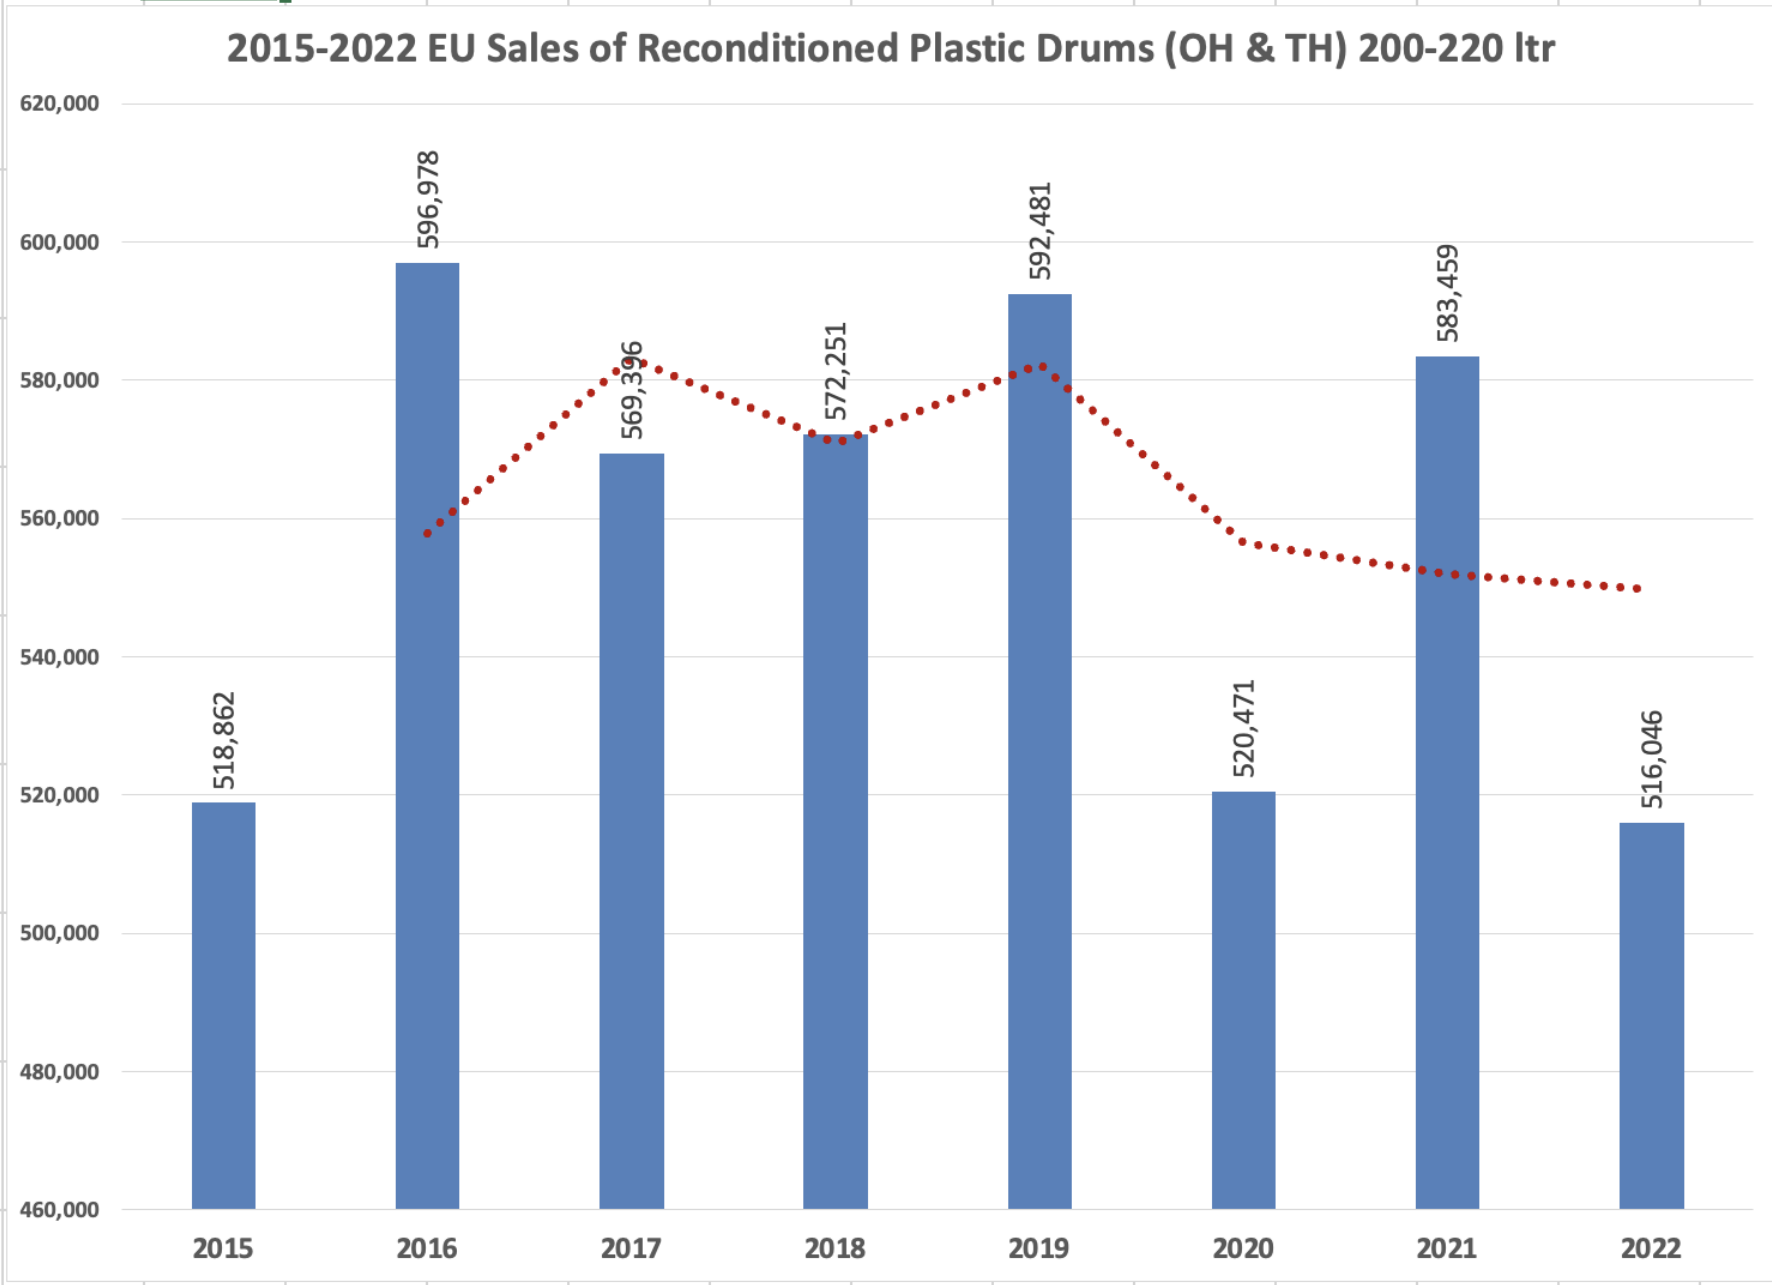

Tight Head & Open Head combined total

SERRED Statistics

Reconditioned 200 ltr Plastic Drums Sales 2015-2022

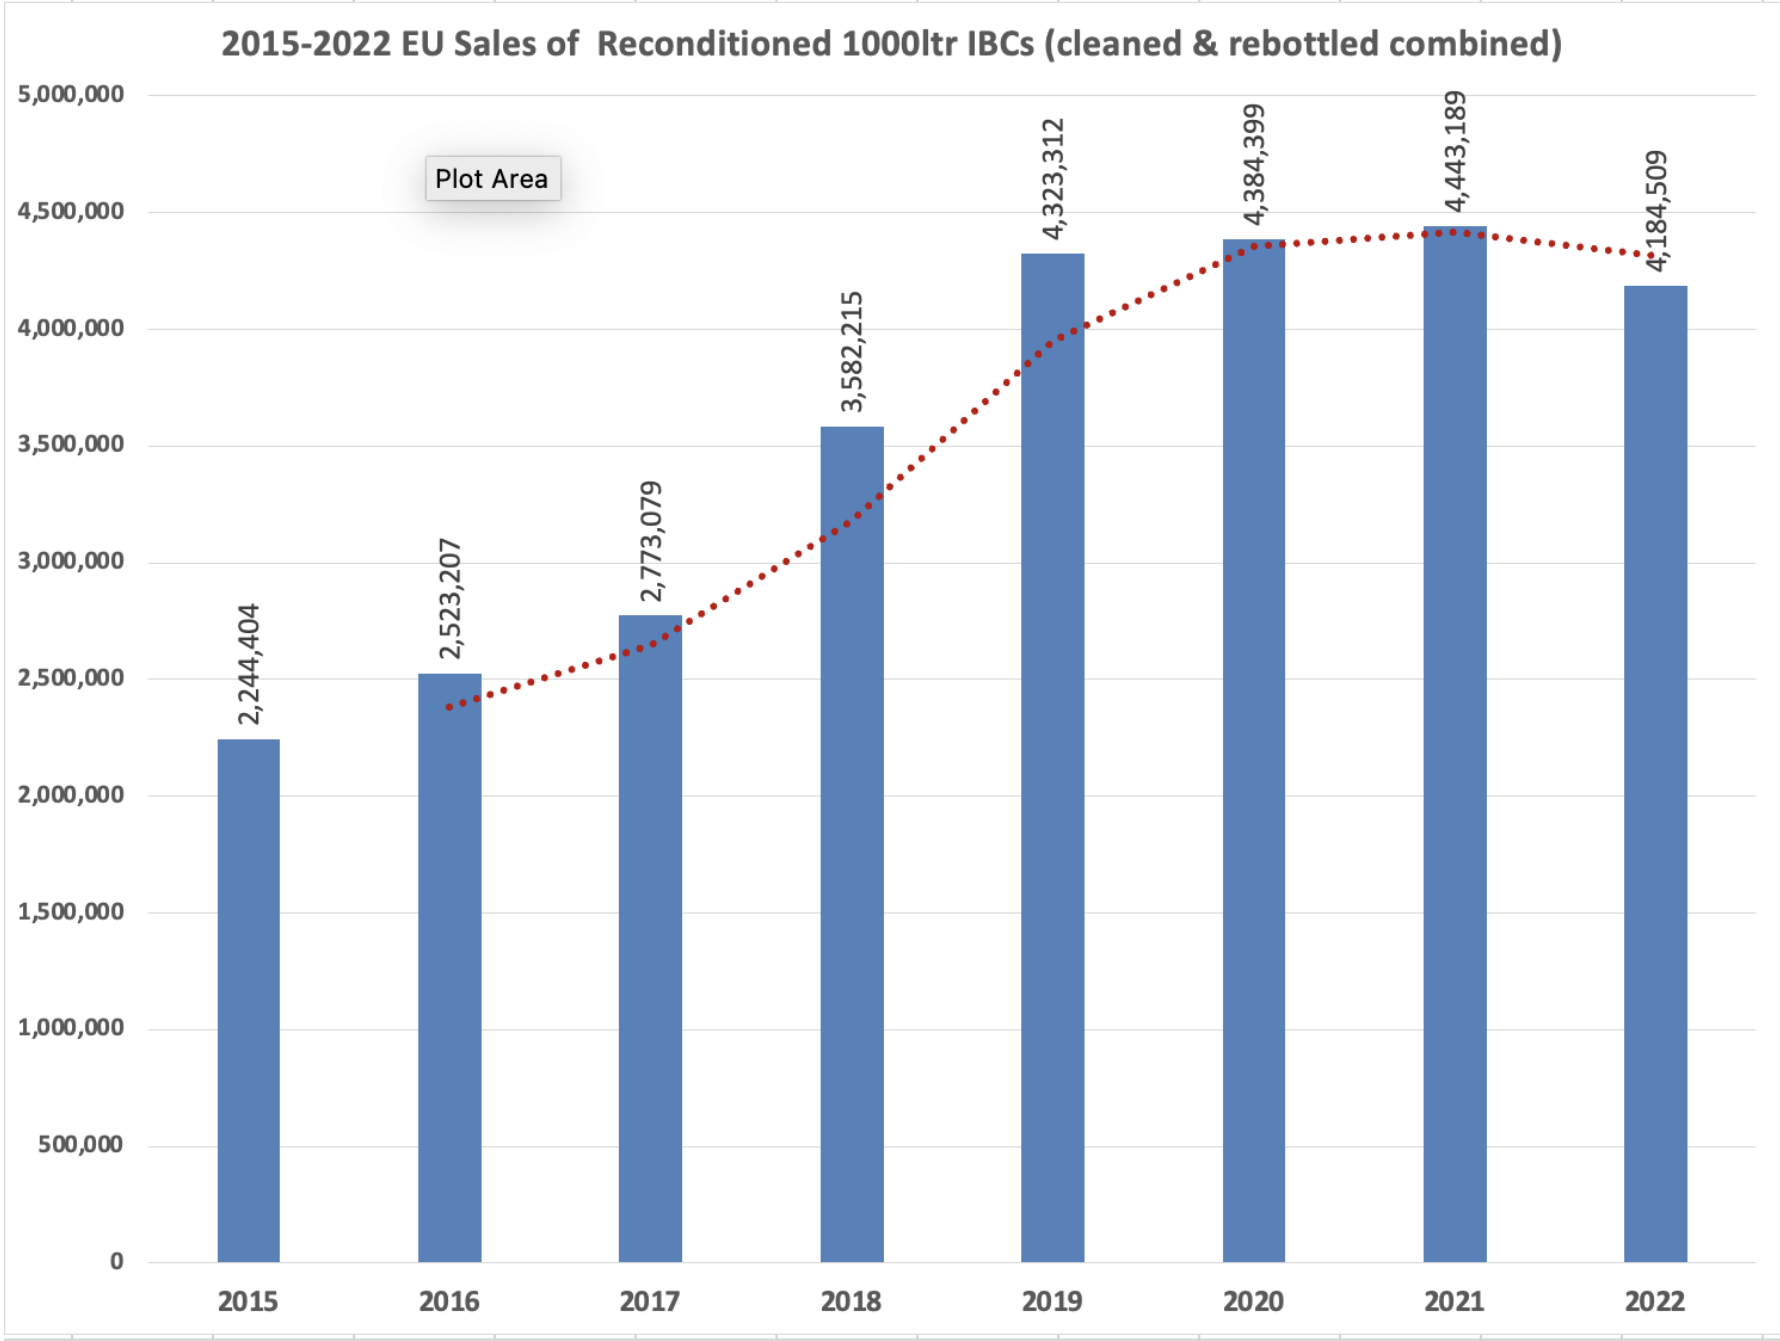

Tight Head & Open Head
combined total

SERRED Statistics

Sales of 1000 ltr Rigid, Composite IBCs 2015-2022

Cleaned & Rebottled combined total

SERRED - Looking ahead

- ❑ Increasing demand for improved Environmental Care & Energy Use
- ❑ Revisions to Packaging & Packaging Waste Legislation = more focus on reuse
- ❑ Increased integration & network between Manufacture & Reconditioning
- ❑ User demand for high safety and performance including; testing, inspection & certification
- ❑ Global networks for international movement of goods
- ❑ Continued professional lobbying of EU in Brussels
- ❑ Work towards improved EU cross-border transport and regulation
